Andrea Menard is a versatile, powerhouse performer who dazzles audiences on screen and stage – alone, on a bare stage, or accompanied by a 50-piece orchestra. With three award-winning cds under her belt, this multi-talented, Métis singer/songwriter and actress has created life-long fans with her songs, her stories, and her message of hope. A true music messenger, Andrea has just released her 4<sup>th</sup> cd, *Lift*, which is a collection of uplifting songs that motivate positive change and open the heart. She is collaborating once again with her long-time producer and co-writer, Robert Walsh.

A well-loved television actor, Menard is known for her performances in *Blackstone*, *Rabbit Fall*, *Hard Rock Medical*, and *Moccasin Flats*. Andrea's one-woman musical stage play, *The Velvet Devil*, which was also her debut cd, was made into an award-winning television movie for APTN and CBC's Opening Night. *Sparkle*, Menard's third album, is featured in a 70-minute, holiday special on APTN, called *Sparkle: An Evening with Andrea Menard*. Both shows garnered Gemini nominations for Menard's outstanding performance.

Andrea's new symphony show, *I Am Andrea Menard*, which debuted with the Regina Symphony Orchestra in May 2014, takes all the elements of her various talents - the jazz crooner, the traditional Métis singer, the actress, and the storyteller, and showcases a genuine personality.
